Professional Summary

B.Tech Information Technology student skilled in Python, FastAPI, Streamlit, JavaScript, MySQL, and web development. Seeking an internship to apply technical skills, work on innovative projects, and gain hands-on experience in software development.

Experience

Artificial Intelligence and Machine Learning Intern
Edunet Foundation x IBM SkillsBuild | Remote
June 2025 – July 2025

- Completed a 6-week AI/ML internship focused on applying machine learning techniques to real-world datasets.
- Developed and deployed an Employee Salary Predictor using regression models trained on 50,000 employee records.
- Conducted data cleaning, preprocessing, and feature engineering to enhance model performance.
- Implemented supervised learning algorithms (Linear Regression, Random Forest, Gradient Boosting) and evaluated with MAE, RMSE, and R^2 scores.
- Tools & Technologies: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook, Streamlit

---

Projects

Lifeline AI Agent – AI-Powered Virtual Health Suggestion Chatbot
July 2025 – Present

- Developed an empathetic AI chatbot offering 24/7 health support for diseases, mental health, and crisis situations.
- Utilized multiple LLMs and healthcare-focused features to enhance access to mental healthcare in underserved areas of India.
- Technology Stack: Streamlit (Frontend), FastAPI (Backend), Google Gemini, Med-Gemini, Ollama (AI/ML Models), Twilio API (Free Trial), Therapist Locator API

Employee Salary Prediction
June 2025 – July 2025

- Developed a machine learning model to predict employee salaries (<50K or ≥50K) based on demographic and job data.
- Applied Gradient Boosting and effective data preprocessing techniques.
- Technologies: Python, Flask, Pandas, NumPy, Scikit-learn, Matplotlib

Education

Drs. Kiran & Pallavi Patel Global University
B.Tech in Information Technology, 2023 – 2027
SGPA: 9.64

Aditi Science School
12th Grade (XII), May 2022 – May 2023
Percentage: 80% | Percentile: 95.6

Technical Skills

- Programming Languages: Python, Java, C, C++, JavaScript
- Frameworks and Tools: FastAPI, Flask, Streamlit, Git, GitHub
- Databases: MySQL
- Web Technologies: HTML5, CSS3, Bootstrap
